

Upsilon Pi Epsilon

International Honor Society for the Computing and Information Disciplines

Membership Application

What is Upsilon Pi Epsilon?

Computing Sciences is a relatively young discipline. Yet despite its comparative youth, Computing Science has had an unparalleled effect on almost every aspect of contemporary life. Indeed it is difficult to predict the ultimate place of the computer in our world. It is the express purpose of Upsilon Pi Epsilon to promote the Computing Sciences and to encourage its contribution to the enhancement of knowledge.

Upsilon Pi Epsilon (UPE) was first organized at Texas A&M University, College Station, Texas, in 1967. The international organization now consists of chapters in various colleges and universities in North America and overseas.

Mission Statement

The mission of Upsilon Pi Epsilon is to recognize academic excellence at both the undergraduate and graduate levels in the Computing and Information Disciplines. The Association will accomplish this mission through programs that:

- Enable outstanding students to obtain recognition of superior educational achievement that emphasizes the Computing and Information Disciplines as well as liberal arts, sciences, and other professional and interdisciplinary education in the context of individual and societal responsibilities,
- Assist in maximizing the personal and professional growth of students in UPE by financially supporting scholarships and other creative endeavors that include the discovery, integration, and application of knowledge,
- Establish significant partnerships with external constituencies interested in promoting and subsidizing high quality computing science education,
- Seek opportunities to extend individual memberships and chapter activities into additional environments yet to become identified.

Guidelines and Goals

Upsilon Pi Epsilon is an honorary society whose membership consists of outstanding undergraduate and graduate students in Computing and Information Disciplines. Only schools that offer a degree in a computing science-related discipline may be chartered. Likewise, prospective student members must be working toward a degree in Computing and Information Disciplines at the time they are considered for membership. Yet members are chosen not only for their scholastic achievement in a computing science program, but also for distinguishing themselves as true professionals by meeting the standards of the society.

Membership is limited to those who can effectively achieve the original goals of the society. These goals include the:

- Recognition of outstanding talent in the field of computing science,
- Promotion of high scholarship in computing science,

- Establishment and maintenance of high standards in computing science,
- Representation of computing science in interdisciplinary communications,
- Encouragement of individual contributions to society through computing science.

Endorsements and Affiliation

Upsilon Pi Epsilon is the first and only, existing international honor society in the Computing and Information Disciplines. It has received endorsements from the two largest computer organizations in the world, the Association for Computing Machinery (ACM) and the IEEE Computer Society (IEEE-CS). UPE is a member of the Association of College Honor Societies (ACHS).

Eligibility:

Accepted Majors:

- Computer Science, Computer Engineering, Information Technology, Management Information Systems.

Undergraduate Students:

- Junior or Senior Standing, Minimum 3.0 GPA

Graduate Students:

- Minimum 3.5 GPA
