

Category	Criteria	Meets Criteria	Score 1-10
Project Description	Overview	Project overview and background was described	
	Goals	Clear brief statement of outcome(s) to be reached was given.	
	Objectives	Set of objectives, if any, to achieve above goals, were described	
	Motivcation	Described why this work is important	
	Prior Art & Challenges	If any previous work is available, their shortcomings were discussed. Anticipated challenges in the current project, if any, were discussed.	
	Data Sources & Description	Data sources, descriptions, main features, and sizes of data used in project were described; Data were adeqatey summarized	
	Methods and Tools	Description of methods and tools used for the analysis were provided	
	Results	Results were described and connected to goals and objectives	
	Dicussion	Results were interpreted for the domain and implications discussed	
	Contributions & Conclusions	Contributions and conclusions from the work were made clear	
Oral Presentation	Structure, flow, transitions	Presentation was well organized and structured; flow was clear and transitions were smooth;	
	Slides quality	Slides were well organized; Slides were not too crowded and adequte highlighting was used for emphasis; font was readable; animations were used when appropriate;	
	Delivery	Delivery was fluent, adequte command of the language, no long pauses, minimum use of vocal fillers, adequte speed and volume of voice, positive body language, made eye contact with audience, did not read from slides, generated interest and attempted to capture audience attention;	
	Response to questions	Was responsive to questios from audience; Responses were relevant and adequte	
Overall Assessment	Project Scope	Project was non-trivial in scope and size; When appropriate more than one data set was analyzed and linked	
	Project Methodology	Non-trivial tools and methods that went beyond mere data summarization and visualization were employed	
	Project Results	Results and conclusions of the project were relevant and interesting
