

Knight Foundation School of Computing & Information Sciences Accelerated BS/MS Degree Pathway

FIU's Knight Foundation School of Computing & Information Sciences provides endless opportunities to its students, offering a range of graduate level degree program, in a number of disciplines.

The best way to pursue one of our graduate programs is through the accelerated degree pathway. The accelerated degree pathway allows for undergraduate level students to start working towards their Master's in Computer Science (MS-CS), MS in Cybersecurity, MS in Telecommunications & Networking or Master's in Data Science (MS-DS) before having completed their bachelor's degree. Students who qualify for the accelerated degree pathway will be able to complete their bachelors while having 1/3 of their masters completed at the same time. The program not only helps students save money, but also time.

The accelerated degree pathway gives students greater access to resources, professors and opportunities they wouldn't have otherwise. For more information about this opportunity please reach out to the graduate program advisor TODAY!

Qualifications:

MS in Computer Science

- Currently pursuing a BS in Computer Science
- Completed at least 75 credits
- GPA of 3.3 or above

MS in Cybersecurity

- Currently pursuing BS in acceptable area of study
- Completed at least 75 credits
- GPA of 3.3 or above

MS in Telecom & Networking

- Currently pursuing BS in Electrical Engineering
- Completed at least 75 credits
- GPA of 3.3 or above

MS in Data Science

- Currently pursuing BS in acceptable area of study
- Completed at least 75 credits
- GPA of 3.3 or above
- MS in Data Science GRE Q of 148 or higher
