

Knight Foundation School of Computing & Information Sciences Master's of Science in Cybersecurity

FIU's Knight Foundation School of Computing & Information Sciences provides a wide range of opportunities to its students, offering a range of graduate level degree program, in a number of disciplines.

The MS in Cybersecurity prepares you in the protection of data assets and sensitive information. It features a curriculum focused on policy operations and technologies and defense techniques. With 2 areas of concentration, students can pursue a more specialized study in the field, obtaining a higher level of education.

Cybersecurity careers are among one of the faster growing. The Bureau of Labor Statistics (BLS), estimates cybersecurity positions will increase by 32% through 2028. According to a September 2019 report, the number of jobs in 2019 as 125,570 nationwide (6,630 in Florida) with 2019 median annual wage of \$99,730 nationwide (\$91,580 Florida).

The time is now! For more information about this opportunity please reach out to the graduate program advisor TODAY!
